

Solution Overview:

The Acumatica Certified solution, SPS Commerce Fulfillment (EDI), integrates seamlessly into your Acumatica ERP system and offers immediate access to thousands of pre-built connections to leading retailers, grocers, distributors, vendors, brands, 3PLs and more.

SPS Commerce Fulfillment (EDI) handles your most complex fulfillment requirements quickly and easily, helping you become EDI capable and compliant with all your trading partners. As your EDI department, we take a full-service, end-to-end approach. This means your team will spend less time and money on data entry, troubleshooting issues, testing maps and responding to trading partner changes.

Key Benefits:

- ✓ Achieve compliance with all your trading partners' EDI document requirements through a single point of integration within days.
- ✓ Automation is fully embedded within Acumatica to provide a streamlined user experience and interface that is easy to use and maximizes productivity.
- ✓ Enhance communication with your trading partners and reduce order processing time and errors by removing the need to re-key data.
- ✓ Full-service, 24/7 team provides proactive management of new, changing and complex trading partner requirements so you can easily adapt to your trading partners needs.
- ✓ Our reliable and scalable world-class data center can easily handle spikes in order volume, especially during the busy holiday season.
